

RIV900 Propeller controls

Designed to control the circulation of liquids, they are suitable for the flow of water, oils, petrol, gas oil and all other liquids except corrosive liquids.

- Body in chromed zinc brass alloy with hexagonal boss and internal thread for the connection.
- Reversible propeller in nylon-glass.
- Tube in Pyrex glass.
- Max. operating temperature 90°C with nitrile seal and 130°C with Viton seal.
- Possibility Viton and aluminum propeller.
